

СОДЕРЖАНИЕ

Обзоры

O'Farrell A. G., Roginskaya M. Conjugacy of real diffeomorphisms. A survey	3
--	---

Статьи

Brennan J. E., Militzer E. R. L^p -bounded point evaluations for polynomials and uniform rational approximation	57
Galán Nacho Montreal, Nicolau Artur. The closure of the Hardy space in the Bloch norm	75
Nazarov F., Peres Y., Volberg A. The power law for the Buffon needle probability of the four-corner Cantor set	82
Бабич В. М. Об одном классе топографических волноводов	98
Suslina T. A. Усреднение в классе Соболева $H^1(\mathbb{R}^d)$ для периодических эллиптических дифференциальных операторов второго порядка при включении членов первого порядка	108
Царев А. В. Модуль псевдорациональных отношений факторно делимой группы	223
