

22

Across China, airports such as Beijing Capital International are being expanded, airline traffic is booming, and civil aircraft development is moving ahead in seven industries.

COVER STORIES

Embraer's diligent support of its Super Tucano is emblematic of the growth of Latin America's aviation and aerospace sectors over the past decade. In a special report on the region beginning on page 46, AW&ST analyses the replacement of government-supported airlines by a new generation of commercial carriers, the rise of business aviation manufacturing and operations, and the potential of a fledgling defense industry. Embraer photo.

25 *Operation of no-fly zone in Libya exposes serious military and political pitfalls.*

42 *Eaton Chairman/CEO details his bullish outlook for commercial aerospace and his broad view of the aerospace and defense industry.*

MARKET FOCUS

- 13** **Delta's Narita hub** keeps the carrier well positioned for Japan's eventual post-earthquake recovery

THE WORLD

- 14** **Crews completing** terminal building exteriors and beginning internal finishing at Spaceport America

CHINA RISING

- 22** **Country's latest** five-year plan makes the commercial aircraft industry a national priority

- 24** **Chinese aerospace** industry making many moves to acquire know-how from Western competitors

MILITARY OPERATIONS

- 25** **Enforcement of no-fly** uncovers threat from SA-24 SAM that Libya fielded virtually unnoticed

DEFENSE

- 28** **U.S. Army once again** having problems acquiring a new intelligence-collection aircraft

- 29** **Russia hopes upgrades** to the Mi-26 will help boost the helo's chances in an Indian air force competition

AEROSPACE BUSINESS

- 30** **European A&D leaders** see urgent need for a "last supper" if the sector is to retain its autonomy

- 31** **Facing declining** budgets in home markets, EADS again overhauling its defense and security activities

SPACE

- 32** **Snecma to begin** tests of next Vinci upper-stage development engine, for eventual use on Ariane 5ME

- 32** **Tenth telecom** spacecraft for Australia's SingTel Optus will use SS/L 1300-series platform

- 33** **Engineers crush** 20-ft.-tall cylinder in a test-to-failure to update data generated in the Apollo era

AIR TRANSPORT

- 34** **Delta's revised plan** to combat fuel price hikes, resistance to higher fares could be harbinger for industry

- 36** **First flight** of passenger 747-8 puts last model of Boeing's big airplane development programs into the air

- 37** **Aerodynamic improvement** kit designed to cut MD-80 family drag is about to be certificated

- 38** **United will upgrade** its 52 777-200s with Boeing-developed aerodynamic performance package
