CONTENTS

PLASTIC DEFORMATION OF FERROUS AND NON-FERROUS METALS

Nagornov, V.S.; Pusep, S.I. Kinetics of plastic deformation in case of low-temperature flat-body drawing. Report 1. Kinetics of finite plastic deformations 3

SHEET AND PLATE PRODUCTION

Rumyantsev, M.I.; Shubin, I.G.; Popov, A.O.; Shurygin, V.I. Computer-aided design experiment of hot rolling technology in finishing train of wide-strip mill subject to stochastic of production process 9

PIPE AND TUBE PRODUCTION

Merkulov, D.V.; Toporov, V.A. Minimal possible length of mandrels for piercing of blanks 13

Sokolova, O.V.; Komkova, T.Yu. Method and equipment for production of pipe with many ribs 20

WIRE PRODUCTS MANUFACTURING

Vasilevskiy, P.A.; Moskalev, S.A.; Zheleznyak, L.M.; Bobina, E.V. Technology development of lead-antimony shot 23

MANUFACTURING OF SPECIAL KINDS OF ROLLED PRODUCTS

Golubchik, E.M.; Telegin, V.E.; Khokhlov, A.V. Production technology development of roll-formed sections of higher strength steel with use of technological adaptation principles at JSC Magnitogorsk Iron and Steel Works 27

PRESSING

Vorontsov, A.L.; Stupnikov, V.P.; Balakhontseva, N.A. State of stress of blank flange in case of its free radial flow during inner surface drawing 30

ROLLING — HYSTORY PAGES

Bogatov, A.A.; Shilov, V.A. The Ural's school of rolling mill designers 36

INFORMATION

Matveev, B.N. Mathematical simulation for prediction of structure and mechanical properties of roll products (literature review). 41
