## LIGHT & ENGINEERING (SVETOTEKHNIKA)

<b>Karsten Winkels</b> Development and Implementation of the Illumination Master Plan for Dresden	5
<b>Vladimir P. Budak and Ekaterina I. Ilyina</b> Choosing Luminaire Efficiency Parameters During Development for External Illumination	13
<b>Natalia Bustryantseva</b> Development of the Theory of the Evening City Light Medium	21
<b>Alexander L. Zakgeim</b> Light-emitting Diode Illumination Systems: Energy Efficiency, Visual Perception, and Safety for Health (Review)	25
<b>Torsten Gerloff, Matthias Lindemann, Stanislav Shirokov, Mario Taddeo, Stefan Pendsa, and Armin Sperling</b> Development of a New High-Power LED Transfer Standard	41
<b>Yuqin Zong and Jeff Hulett</b> Development of a Fully Automated LED Lifetime Test System	47
<b>Wenyi Li, Wenting Cheng, Xiaoyan Zhu, and Ingrid Heynderickx</b> Study on Visual Perception of Flicker from Low-Height Mounted LED Luminaire for Road Lighting	57
<b>Xiaoyan Zhu, Shiata Deng, M. Zhang, Wenting Cheng, and Ingrid Heynderickx</b> Perception Study of Discomfort Glare from LED Road Lighting	62
<b>Detlef D�e</b> Luminaires with Light Emitting Diodes of Reduced Glare for Ergonomic Office Illumination	69
<b>Nina A. Gal'china, Eduard M. Goottsait, Evgeny A. Dvornikov, Lev M. Kogan, Igor T. Rassokhin, Naum. P. Soschin, Andrei. N. Turkin, and Alexander E. Junovich</b> A Light-emitting Diode Device with Improved Colour Rendition	73
<b>Oleg I. Rabinovich</b> Quantum Yield of LEDs Based on <i>InGaN/GaN</i> - structures at Silicon Substrates	78
Contents #2	83
