61

Small suppliers based in France, such as UAV-maker Redbird, are introducing aerospace innovations. Redbird's UAVs are used for precision surveillance and site monitoring.

COMMERCIAL AVIATION

- 32 **Reliability suffers** as China's civil aviation system struggles to keep up with burgeoning traffic
- 34 **Malaysia Airlines' new CEO** overhauls the carrier from staff to fleet to network, aiming for profits
- 36 **Rolls-Royce transitioning** to pulsed system at Trent assembly plant to meet growing production volume

SPACE

- 38 **USAF investigates** a possible Procurement Integrity Act violation related to the EELV program
- 56 **Falcon 9 certification** signals big shift in how USAF will assure two paths to orbit for national security payloads

ROTORCRAFT

- 42 **Russia and China** will develop a helicopter almost as large as the Sikorsky King Stallion

- 54 **First flight of Raider** brings Sikorsky a big step closer to its goal of lifting limitations on rotorcraft

DEFENSE

- 44 **Boeing plans to ramp up** P-8 Poseidon production to satisfy growing international demand, U.S. Navy plans
- 48 **Airbus admits quality** control problems led to A400M crash—were testing protocols also missed?
- 52 **Avic appears to be** working on a vertical-landing fighter, but propulsion inexperience may slow development

PARIS AIR SHOW 2015

- 58 **Rising production rates** are pressuring suppliers and reshaping how the industry builds aircraft and engines
- 59 **Dassault looks to boost** build rates for the suddenly popular Rafale and new Falcon 5X and 8X business jets
- 61 **Innovations in technologies** such as composites and telescope mirrors come from small French suppliers

- 66 **Airbus halts test flights** of Pratt-powered A320neo but sees little impact on development schedule

- 68 **New assembly line** for Boeing 737 MAX is poised for production as 737-8 design passes the 90% point

- 72 **As CSeries development** progresses, new Bombardier commercial aircraft president focuses on service entry

- 73 **Industry officials with** insight into Comac C919 program say a 2018 first delivery will be challenging

- 76 **Pentagon, Lockheed Martin** accept "block buy" for the F-35, but questions about upgrade plans loom

- 80 **Cost containment** for the F-35 depends on finding many international orders, which will not be easy to secure

- 81 **Buoyed by victory** in Poland, Airbus challenges Sikorsky for a greater share of the military helicopter market

- 82 **McNerney talks with** Aviation Week editors about Boeing's sometimes painful innovation and initiatives

- 82 **Embraer's Curado** is upbeat about E2 commercial jet family prospects but concerned for KC-390 program

- 83 **Enders tells Aviation Week** about the digital transformation that is the next big project for the Airbus Group

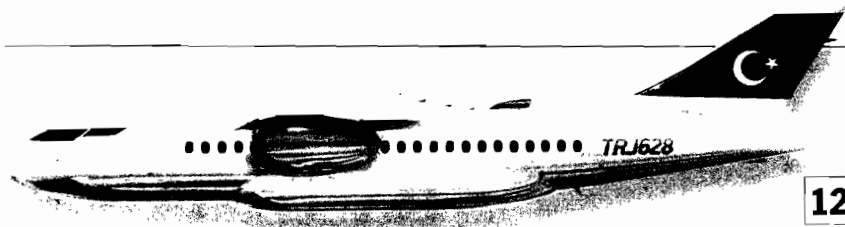

- 83 **Bombardier's new CEO** Alain Bellemare talks with Aviation Week editors about his focus on program execution

ON THE COVER

The prospects for Dassault's Rafale have improved dramatically this year, with orders from Egypt, Qatar and India. Across aerospace, OEMs such as Dassault and their suppliers are looking at ramping up production rates. A special report beginning on page 58 examines the backlogs and explores what they will demand of the industry. Dassault photo by Veronique Almansa.

Aviation Week publishes a digital edition every week. Read it at and on our app.

90 Sixty years of Aviation Week reports on the Paris Air Show are behind the covers in our online interactive feature

92 Boeing invests \$1 billion in new composite wing center; productivity enhancements for the 777X

94 GE readies first GE9X full core demonstrator and enlarges fan again to improve fuel burn

94 Beyond its market potential, Boeing's 787-10 may help Boeing blaze trail of commonality in its widebody line-up

96 Embraer bets carriers will focus on return on capital, not just unit costs, and turn to smaller airliners

98 Rolls-Royce forecasts significant performance enhancements for new Trent 7000 as assembly nears

99 Superjet controlling partners aim to boost sagging sales of the SSJ by restructuring the company

100 As production rates in key programs increase, Airbus realizes it needs to change the way it operates

102 Europe raises defense spending, but after years of cuts, will it be enough to deal with escalating fractiousness?

104 Two non-NATO powers establish joint navy task force to help them confront Russia across the narrow Baltic

106 Lack of aerial refueling capability has spurred Europe to build its tanker fleet even as fighter numbers decline

107 Boeing resumes KC-46A flight tests but delay from wiring harness problems challenges test plans for the tanker

108 NATO and aligned nations find new-technology weapons add capability faster, cheaper than new platforms

110 Fearing rogue states and a menacing Russia, NATO is pushing for European ballistic missile defense

112 Proton launch mishaps have left Arianespace and SpaceX vying for commercial launch market

114 European satellite makers move to boost output to meet demand emerging from space economies

116 CNES's Le Gall praises the many new partners that are helping to expand the French space agency's mission

EDITORIALS

122 A&D industry should use windfalls from production to invest in innovative processes and maintain its health

122 U.S. needs ATC reform to bring it into line with other countries' efforts and improve responsiveness, nimbleness
