

# AVIATION WEEK

## & SPACE TECHNOLOGY

**Digital Extras** Tap this icon in articles in the digital edition of AW&ST for exclusive features. If you have not signed up to receive your digital subscription, go to [ow.ly/AkXJo](http://ow.ly/AkXJo)

- 6 Feedback
- 7 Who's Where
- 10-11 First Take
- 12 Up Front
- 13 Going Concerns
- 14 Inside Business Aviation
- 15 Airline Intel
- 16 Leading Edge
- 18 Commander's Intent
- 19 In Orbit
- 20 Washington Outlook
- 71 Classified
- 72 Contact Us
- 73 Aerospace Calendar

### SPACE

- 22 **Commercial satellite** fleet operators hope to sustain three viable options after recent launch mishaps
- 23 **Falcon 9 failure** stalls SpaceX momentum, casts doubt on NASA commercial crew vehicle plans
- 68 **U.S. Air Force** says Sbirs redesign will save \$1 billion for future early missile warning satellites
- 70 **Lockheed Martin** eyes commercial communications satellite joint venture with Saudi Arabia

### COMMERCIAL AVIATION

- 26 **Emirates issues** report aiming to end debate with U.S. majors over alleged government subsidies

# 61

*Alan Stern, principal investigator on the New Horizons mission, inspected the spacecraft shortly before its launch in January 2006, and he will be on hand in the control center at the Johns Hopkins University Applied Physics Laboratory when the probe flies past Pluto and its moons on July 14.*

- 28 **Hong Kong authorities** reject Jetstar's bid for a license in rare rebuff to Asian LCC expansion
- 29 **After years of financial** problems, LOT Polish Airlines reveals ambitious turnaround plan
- 30 **Aeroflot Group**, hit hard by Russia's economic downturn, shrinks fleet and considers restructuring
- 57 **Pratt & Whitney** GTF test and development tempo steps up for four airframe programs
- 58 **Despite development** delays, Mitsubishi looks for bigger impact in large RJ marketplace
- 59 **ATR expands assembly** capacity, but with sales slow, launch of 90-seat variant is not in sight
- 60 **Western sales will** pick up as commercial market improves, says Superjet International CEO

### BUSINESS

- 30 **Long-term task list**, hard decisions about very nature of aerospace giant await new Boeing CEO
- 32 **Boeing 787 problems** bedeviled McNerney, but he hands over a thriving commercial business

### DEFENSE

- 34 **Key F-35 targeting** system is playing catch-up with competition due to development delays

## INNOVATION

**36 Airbus Group CEO** Tom Enders says the aerospace industry must work with—and more like—tech sector

**37 Scaled Composites'** creative environment is thriving despite challenging Stratolaunch program

**38 Researchers try to** make the case for ideas such as aerial refueling, intermodal transport for airlines

**40 The continuing push** for lower fuel consumption is driving designers toward new aircraft configurations

**44 Stratospheric vantage point** attracts out-of-the-box thinking on unmanned aircraft design

**45 Different way to** enter a planet's atmosphere is behind Northrop Grumman "rover" concept

**46 Could new NASA X-plane** pave the way for revolution in on-demand transport, commuter airlines?

## TECHNOLOGY

**48 U.K. transonic wind tunnel** upgraded to aid commercial aircraft design, certification

## FACE TO FACE

**50 Rockwell Collins CEO** on innovating for the Defense Department and warding off cockpit hackers

## AIR TRANSPORT IN AFRICA

**52 Kenya Airways and** South African Airways struggle to restructure carefully and become profitable

**54 Need to invest in** airport infrastructure in Africa stems from terrorism, projected growth

**56 Despite two years** of losses and regulatory headaches, Fastjet CEO is working on plans for expansion

## PLUTO ENCOUNTER

**61 Scientists hope visit** to Pluto by New Horizons mission will reward lifetime of preparation

**62 Technical, bureaucratic** challenges faced Pluto mission program during its 15 years in the making

**64 New Horizons' route** to the third zone of the Solar System included data collection near Jupiter

**65 Instruments on Pluto** mission helping make it 'capstone event in renaissance of Solar System'

**67 Collection of data** transmitted from New Horizons could be threatened by undetected space debris

## VIEWPOINT

**74 In this volatile** security environment, are Pentagon, major contractors flying in different directions?
