EUROPE IN CRISIS

- 20 **Turkey's first** failed coup reveals vulnerabilities that will complicate diplomacy, military cooperation
- 22 **European carriers** reel from drop in traffic following terrorist attacks, Turkish political turmoil
- 24 **Germany looks** to lead from the front on foreign operations and multinational defense programs

DEFENSE

- 25 **U.S. Air Force** may pursue two light-attack aircraft, possibly in parallel, to replace A-10 Warthog

38

NASA research into minimizing sonic boom looks set to remove one of the major barriers to economically and environmentally viable supersonic transports, but work on reducing airport noise and improving cruise efficiency is still needed.

- 34 **Avic unveils** amphibious aircraft that is hailed as equipment for claimed South China Sea

- 59 **U.S. Air Force Reserve** gains B-1 and B-52 experience, looking to take on the heavy bomber mission

GENERAL AVIATION

- 26 **Flight safety** efforts were in the spotlight at the annual EAA AirVenture show in Oshkosh

AIRSHIPS

- 28 **French cargo** airship startup draws on ultracapacitors to carve out market niche
- 28 **Ultracapacitors** may soon be used in hybrid propulsion systems and directed-energy weapons
- 30 **Airship carriers** could extend the capabilities of small and medium-sized unmanned aircraft systems

COMMERCIAL AVIATION

31 Longer-range narrowbody aircraft open fresh opportunities—and competition—on long-haul routes

33 Adding larger Airbus A321neos, AirAsia underlines its confidence in business model and prospects

46

POLICY

36 FAA extension is fraught by looming privatization of air traffic management and other issues

36 Congress gives the FAA more time and money to develop specific regulations for UAVs

TECHNOLOGIES OF THE FUTURE

38 With more than 100 years of technology advances behind it, what lies ahead for aerospace?

READER MEMORIES

46 Our readers share how they found Aviation Week and what sparked their passion for air and space

SMALL SATELLITES

54 U.S. industry grapples with keeping smallsat operators viable without dedicated launch services

56 DARPA funds lightweight laser communications terminals that could have commercial application

SPACE

57 NASA opens the door to a private-sector economy in low Earth orbit with private-module concept

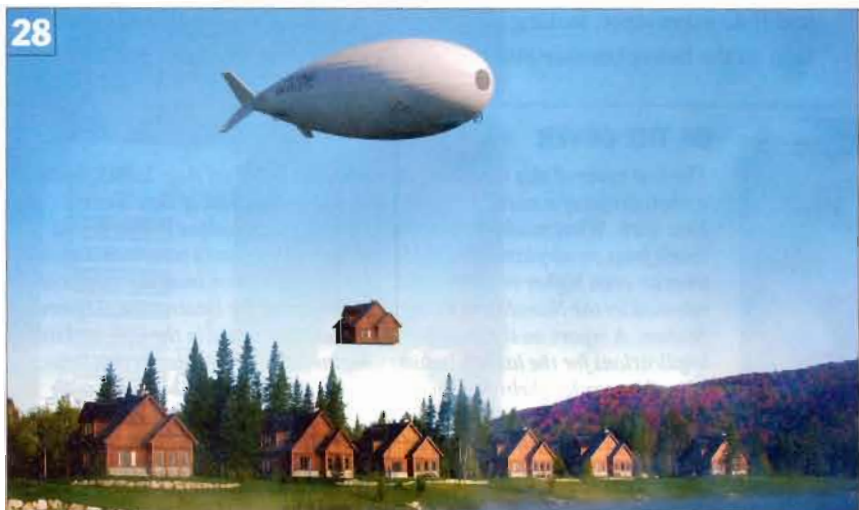

34

FACE TO FACE

60 Marillyn Hewson, Lockheed Martin CEO, on innovation, the F-35, Sikorsky, Brexit and U.S. election

VIEWPOINT

66 Abandoning its role as a leader of global alliances like NATO will not make America great again

28
