SPACE

28 Launch of China's Long March 7, its most powerful rocket yet, opens a busy 12 months for space program

32 First flight in 2017 slated for huge air launch carrier Stratolaunch as assembly completion nears

DEFENSE

34 Israeli air force plans custom communications, maintenance and weapons for its F-35s

TECHNOLOGY

38 New robotic manufacturing process gives Boeing 777X production growing pains

UNMANNED AVIATION

39 FAA issues final rule for commercial ops of drones, but industry already wants the next set of guidelines

28 China's Long March 7, launched for the first time June 25 and comparable in capability to the SpaceX Falcon 9, is due next year to loft the Tianzhou 1 cargo spacecraft that will supply a space station scheduled for completion in 2022.

COMMERCIAL AVIATION

40 Comac ARJ enters service 14 years after development launch with in-house operator Chengdu Air

46 Regulatory uncertainty, loss of shareholder value, access questions face airlines after Brexit vote

BUSINESS

42 Aerospace industry has more at stake than most following U.K. vote to leave the European Union

FARNBOROUGH 2016

48 U.K. wing manufacturing will be challenged to maintain its edge as the U.K. exits the European Union

54 Designers push for longer, lighter, more flexible future commercial airliner wings with active controls

58 French aerospace primes take unorthodox steps to keep production boosts on track

60 More than 100 British companies supply F-35 program engineering and manufacturing expertise

ON THE COVER *The F-35's long-awaited U.K. debut (page 66) will highlight this month's Farnborough International Airshow and Royal International Air Tattoo. But a dark cloud will hang over both events: the U.K. vote to leave the European Union (pages 17, 42 and 114). Also in this issue: British suppliers' roles on the F-35 (page 60), the U.K.'s drive to be the world's leading wing manufacturer (page 48), new dynamics in the civil narrowbody market (page 90), the race to build the U.S. Air Force's sixth-generation fighter engine (page 78) and interviews with the CEOs of Airbus (page 93), Boeing (page 98), Bombardier (page 104), Embraer (page 108) and Alcoa (page 84). Tim Peake cover image by ESA-Stephane Corvaja via Getty Images. Aviation Week publishes a digital edition every week. Read it at AviationWeek.com/awst and on our app.*

66 U.S., U.K. explore training and logistics partnership on F-35s jointly based in Britain

68 Across Europe, NATO air arms are looking to buy new fighter jets and upgrading those in use now

72 As the F-35 debuts at air shows outside the U.S., we look at stealth versus current radar technology

75 With F-22 capability advantages over the F-35, would restarting F-22 production be worthwhile?

78 Three-stream engine technology, deemed vital for U.S. future fighter jet performance, advances

79 U.S. Air Force outlines details of sixth-generation combat fighter engine plans

80 A400M schedules challenged by gear box issues, material and quality concerns

82 Europe gears up to develop new UAS systems, but U.S. and Israel still dominate the inventories

VULCAN INC.

84 Alcoa CEO details company's new identity and emphasis on additive manufacturing, other advances

88 Parliament urges U.K. government to foster continuing space sector growth with tech skills program

90 Farnborough Airshow this year will provide an early demonstration of narrowbody market changes

93 Airbus CEO discusses A320neo delivery and production issues, possible effects of Brexit decision

96 Airbus and Boeing take A320neo-737 MAX battle to new levels as they meet at first major air show

98 Boeing CEO outlines status of 737 MAX family, KC-46A tanker, supplier issues and more

100 Clearer picture emerges of the "sweet spot" for Boeing's middle-of-market aircraft family concept

103 Airbus A330neo, future competitor to Boeing 787, quietly progresses toward final assembly

104 Bombardier CEO reviews C Series relaunch, Learjet 85 cancellation, company's return to liquidity

106 Quebec government moves to expand and diversify aerospace industry key to local economy

108 Embraer CEO reflects on the E2, Quebec government support of Bombardier, and Brazil's economy

110 Embraer 190-E2, ahead of flight-test schedule, still has to prove it will meet performance targets

VIEWPOINT

114 After Brexit vote, U.K. defense imports could be under pressure from a devalued pound
