**54**

*These 20 outstanding undergraduate or master's degree students in aerospace engineering and related fields are poised to become leaders in research and industry.*

**HYPersonICS**

**20 National Academies** report indicates U.S. may be losing its lead in hypersonics weaponry

**COMMERCIAL AVIATION**

**24 Boeing enters** busiest phase yet of 737 MAX development plan, with -9 rollout, -8 certification

**26 Alaska Airlines** addresses fleet strategy as it works through integration of Virgin America

**28 Europe's airlines**, old and new, revise tactics to cope with sagging profits, intensifying competition

**38 Low fuel prices**, leasing overcapacity and stronger U.S. dollar boost turbofan competition for ATR

**39 China Eastern is** adding more aircraft at Shanghai as China Southern eyes new Beijing airport

**DEFENSE**

**30 Boeing pitches** upgraded F-18 "Block 3" Super Hornet to optimize U.S. Navy's integrated network

**32 Shockingly low** U.S. combat aircraft readiness levels are noted to Congress by armed services

**41 Saudi Arabia** starts inducting potent F-15SA Eagles after Boeing resolves flight-test issues

**42 Kratos Defense** is developing combat drones for Air Force Research Laboratory and DARPA

**24**

**FACE TO FACE**

**34 Blackwater founder** discusses his new China-facing transport services company and U.S. military

**UMANNED AVIATION**

**37 European Union** lawmakers try to accelerate passage of harmonized regulations for civil UAVs

**ON THE COVER**

*Are China and Russia threatening the U.S. lead in hypersonic propulsion? Guy Norris reports (see page 20). Cover concept by Aviation Week art department. Also in this issue: Why ATR thinks its turboprops can beat regional jets (page 38) | Blackwater founder on smarter defense spending (page 34) | Special report: combat aircraft in Asia (page 48)*

*Aviation Week publishes a digital edition every week. Read it at [AviationWeek.com/awst](http://AviationWeek.com/awst) and on our app.*

# Contents

41

## MANUFACTURING

**40 Turbofan structures** are targeted for 3-D-printed composites by Oxford Performance Materials

## NAVAL AVIATION

**44 Beijing signals** its aircraft carrier plans with a mockup of an airborne early warning aircraft

**46 Contenders from** Leonardo, Sikorsky and NH Industries line up for Seoul's maritime order

**47 The Pentagon wants** an unmanned refueling capability to extend range of its aircraft carrier air wing

## COMBAT AIRCRAFT IN ASIA

**48 India's air force** and navy fighter needs present an eye-catching opportunity for aircraft makers

**50 Proliferation of fighter** types and versions frustrates China's air force and navy, snarls logistics

**52 Chinese-Pakistani JF-17** Thunder fighter will fly this year, with new capabilities being added rapidly

**53 Israel's Elta** assists with radar and could have broader development role on South Korea's KF-X fighter

## 20 TWENTIES

**54 Accomplished students** distinguish themselves in aerospace research and projects in the world at large

## AIR TRAFFIC CONTROL

**60 Reconfigurable FAA** voice-over-internet-protocol communications system enters testing

## ROTORCRAFT

**62 Safran studies** hybrid power systems to reduce turbine engine size and lower fuel burn

66

## VIEWPOINT

**66 U.S. is risking** its aviation advantage, stuck in 20th-century bureaucratic policies, processes
