## 66

*It looks like 2017 will be another tough year for medium and heavy rotorcraft, although the market for light helicopters appears buoyant, and defense spending is beginning to increase.*

### SPACE

**20 Virgin Galactic** forms Virgin Orbit to spearhead development of its LauncherOne low-cost vehicle

**23 Startup LeoLabs** will provide orbital debris tracking for constellations in low Earth orbit

**57 India launches** a record 104 satellites in one mission, mostly Earth-observation cubesats

**58 Q/V-Band** technology for faster high-throughput satellites advances to meet demand

**60 Satellite operators** urge original equipment manufacturers to offer cheaper, more flexible capacity

**62 Space-debris** mitigation gains attention as companies prepare to launch thousands of new smallsats

### AERONAUTICAL ENGINEERING

**24 Lockheed Martin** explores hybrid wing body possibilities, readying for NASA X-plane demo bid

### COMMERCIAL AVIATION

**26 NASA initiates** five-year program to tackle the most inefficient phase of flight—ground operations

**28 Many European** airlines are developing their own apps to boost ancillary revenues

**29 Adjustments to Boeing's** supply chain help the company realize \$1 billion in savings

**41 Qatar Airways** looks to expand its South Pacific network, spurred by pending bilateral talks

**42 Midsize aircraft** sector poses opportunities and development dilemmas for Airbus and Boeing

**44 Narrowbody production** volume creates an opening for new aircraft financing entrants

### DEFENSE

**30 Facing new** information age of warfare, U.S. Air Force starts command-and-control overhaul

**32 United Arab Emirates** defense pact with Russia may be tactic to help it gain entry to F-35 program

**33 Block 3F F-35** will not be able to hit moving targets without new bombs with advanced software

**34 U.S. Marine Corps** and Air Force are at odds about F-35 refueling needs during ocean crossings

### ON THE COVER

*Virgin has formed a new company to launch satellites. The first air-launched LauncherOne small-satellite test vehicle has been completed at the company's Long Beach, California, factory (see page 20). Virgin Orbit photo by Matt Krautstrunk. Also in this issue: India's stealth fighter plan (page 39) and a special report on rotorcraft (page 64).*

*Aviation Week publishes a digital edition every week. Read it at [aviationweek.com](#) and on our app.*

**36 BAE Systems** and HAL propose Advanced Hawk for India's expanded trainer force

**38 India aims** to launch multirole helo this year with performance better than Russian Helicopters' Mi-17

**39 Developers of** India's proposed stealth aircraft have completed configurations and feasibility tests

**40 Midlife upgrades** and testing will leave France without an aircraft carrier for almost two years

## AIR TRAFFIC MANAGEMENT

**46 Single European** Sky ATM Research initiatives begin to tackle capacity and fuel-burn issues

**48 A fresh look** at satellite-guided approaches is proving effective at Paris-Charles de Gaulle Airport

**49 Air traffic debates** over FAA reauthorization continue, but the outcome remains murky

**50 Colorado invests** in remote tower system to aid key mountain airports that serve winter tourists

**52 NASA, Boeing** and some airlines test new algorithm that optimizes spacing between aircraft

**55 Airmap offers tools** to help operators plan drone flights in low-altitude airspace

## ROTORCRAFT

**64 Leonardo shifts** focus to Next-Generation Civil Tiltrotor demonstrator to fly in 2023

**66 Low energy prices** challenge sales of medium and heavy helicopters, presenting bleak outlook for 2017

**68 Airbus's Clean Sky 2** demonstrator will use a single-engine-operative system to reduce noise, emissions

**69 Production Bell 505s** are rolling off the assembly line as demand grows for the light-single helo

**70 Marengo Swisshelicopter** is investing heavily to be ready for production in 2018

## VIEWPOINT

**74 Buying new** aircraft would be cheaper than keeping bizjet-based U.S. Air Force T-1A trainer flying
