SPACE

- 20 **Commercialization of space** is attracting new and established players to the sector
- 22 **U.S. aerospace** companies jockey for piece of Trump administration's awaited space exploration initiative
- 31 **SpaceX plans rapid** shift to flight-proven Falcon 9 in its quest for reusability

BUSINESS AVIATION

- 23 **Business jet market** in Greater China projected to return to modest growth in 2018

PROPULSION

- 24 **Zunum Aero's** hybrid-electric 10-50-seat regional aircraft design attracts high-power backers

ON THE COVER

Iomax's Archangel is an affordable, muscular counter-insurgency machine based on an agricultural aircraft. We flew it and evaluated its performance (see page 40). Iomax photo by John Kubiak. Also in this issue: Inside China's hypersonics efforts (page 50) • Face to face with GE chief Jeff Immelt (page 35) • Rolls-Royce's UltraFan bid for Boeing's next commercial airplane (page 58). Aviation Week publishes a digital edition every week. Read it at AviationWeek.com/awst and on our app.

31

SpaceX is pursuing a Falcon 9 that can be reused 100 times, promising enormous savings. A reused Falcon 9 lifts off from Launch Complex 39A with the STS-10 communications satellite on board.

DEFENSE

- 58 **Rolls-Royce** UltraFan engine design might be prime candidate for Boeing's New Midsize Aircraft
- 63 
- 26 **U.S. Navy favors** buying block IV recertification and next-gen missile programs over Tomahawks
- 46 **Singapore eyes** more maritime patrolters; Boeing Poseidon and Saab Swordfish are contenders
- 47 **South Korea steps up** maritime patrolter force need in light of North Korea's nuclear-sub push
- 48 **Australia's** planned armed drones force is likely intended for expeditionary operations
- 49 **Japan's KHI C-2** is declared fit for service; planned commercial version has been dropped

COMMERCIAL AVIATION

- 28 **Airbus plans A380** reconfiguration to make room for extra seats in attempt to attract airline buys
- 29 **Russian MC-21** narrowbody aircraft's composite wing needs reinforcement prior to flight tests
- 30 **Rockwell Collins** notes certification costs are beginning to outweigh production costs
