**COMMERCIAL AVIATION**

- 20 Airbus-Bombardier** C Series agreement has broad implications across civil aerospace industry
- 23 Paris airport group** invests in infrastructure improvements in light of high passenger growth
- 46 A330neo's design** range, now in flight-testing, is being extended to counter the Boeing 787
- 48 Airbus, Safran** and Suez aim to expand aircraft storage facilities worldwide with Tarmac Aerosave

**TECHNOLOGY**

- 24 Wind tunnel** in the Alps, essential to European aerospace sector, undergoes much-needed upgrades

**44**

*New Zealand's Queenstown Airport sits in a basin surrounded by mountains, which makes it an ideal showcase for the benefits of required navigation performance.*

- 40 NASA rebuilds** X-plane skills with low-boom demo, its first manned supersonic X-plane since 1990

- 42 Alphabet's Project Wing** works with real-world users to test its new drone delivery service

- 43 Aerovel's VTOL Flexrotor** and other small UAVs are setting new standards for endurance

**SPACE**

- 25 Blue Origin completes** first hotfire test of its full-scale, methane-fueled BE-4 rocket engine
- 38 NASA's nuclear-fission** power system designed to produce 1 kW of electricity nears trial run

**DEFENSE**

- 26 U.S. Air Force's new** trainer will feature next-gen ejection seat to improve safety for student pilots
- 27 TAI tackles trio** of projects in preparation for building Turkey's first indigenous fighter

- 30 Black Hawks** from Sikorsky and Sierra Nevada Corp. vie to replace U.S. Air Force Bell UH-1N Hueys

- 32 Lockheed Martin's** JASSM-ER is being installed on F-15E, F-16, B-2 and B52 combat aircraft

**ON THE COVER**

*Airbus's decision to take a majority stake in Bombardier's C Series will have repercussions throughout the aerospace world for years to come. Our report by Jens Flottau, Graham Warwick and Guy Norris begins on page 20. Airbus photo by P. Pigeyre. Also in this issue: Defense, space and commercial air transport developments in the Middle East (page 62), Blue Origin hotfires its BE-4 engine (page 25), and Seoul prepares a tactical ballistic missile for 2018 (page 59). Aviation Week publishes a digital edition every week. Read it at [AviationWeek.com/awst](http://AviationWeek.com/awst) and on our app.*

43

**34 MBDA missile** programs benefit from joint industry/academic involvement across Europe

**36 UK Defense Ministry** issues a cybersecurity mandate to protect its industrial base

### BUSINESS

**37 Honeywell, BAE Systems, SAIC,** among others, are trimming ops to adjust to down market

### AIR TRAFFIC MANAGEMENT

**44 Performance-based** navigation and runway improvements key to night ops at New Zealand airport

### C SERIES IN-SERVICE REPORT

**49 Airlines praise** performance of Bombardier's airliner, despite "teething" and engine issues

### INTERVIEW

**54 Siemens Software** president/CEO on smart airplanes, 3D printing, cybersecurity and gaps in the IoT

### PROPULSION

**56 Rolls-Royce readies** to test Advance3 core central to its large civil engine-development strategy

### SOUTH KOREAN DEFENSE

**58 Taurus missile** consortium proposes compact bunker buster that could fit in the KAI FA-50

**59 Tactical ballistic** missile to counter North Korean artillery is planned to be ready by the end of 2018

**60 Local engineers** take nominal lead in equipping South Korea's indigenous fighter, the KF-X

**61 Seoul seeks** maritime patrol and AEW aircraft for threats from Pyongyang—and China and Japan

### DUBAI AIRSHOW PREVIEW

**62 Fighter modernization** from Morocco to Iran is a boon for manufacturers in East and West

**65 Chinese UAVs** proliferate across the Middle East after U.S. declines to sell Predators and Reapers there

**66 Three-year-old** UAE space agency plans a Mars orbiter—to launch in 2020—and astronaut missions

**67 Competitors hope** the big three Gulf carriers have stopped growing—but that may be premature

**71 Saudia's moves** toward privatization hinge on quick opening of the new airport in Jeddah

### VIEWPOINT

**74 U.S. should allow** supersonic flights over land as a spur to technological progress

# Step INSIDE

## What's Next in Global Aerospace and Defense

## Mobile. Online. Updated Daily.

For subscribers only. Get new content daily and read the weekly digital edition of *Aviation Week & Space Technology* online.

### DESKTOP/LAPTOP
