Design details revealed for Boeing blended wing body

FEATURES

20 | BEATING THE BOOM

Lockheed Martin's Skunk Works is only bidder to build the low-boom flight demonstrator

22 | NEW SPACE RACE

U.S. Commerce Secretary Wilbur Ross describes department's role in boosting U.S. launch services

44 | GAME ON

After 11 years and 126 consecutive successful launches, United Launch Alliance is fighting for its life

50 | MAXAR Q&A

Space conglomerate CEO explains what satellite, imagery and commercial space will look like

56 | MQ-25 CANDIDATES

Sizing up competitors for U.S. Navy's unmanned tanker competition

DEPARTMENTS

COMMERCIAL AVIATION

- 24 | Mitsubishi division proposes Japanese version of Airbus
- 26 | Vietnam Airlines looks to upgrade its narrowbody fleet
- 38 | Airbus plans heavy modifications to create A330-based Beluga
- 39 | Honeywell uses quadcopter to demo inflight drone support
- 52 | TBS helps Heathrow controllers improve the airport's punctuality
- 28 | China's private jet market is beginning to recover

BUSINESS AVIATION

- 30 | F-35C faces long road before initial operational deployment
- 32 | World View's multimonth stratospheric balloon could carry sensors for hunting missiles
- 40 | F-35 sustainment challenges mount as global fleet grows

42 | Is Boeing neglecting KC-46 tanker?

PROPULSION

- 34 | Safran says counter-rotating open rotor engine is relevant
- 35 | Icing tests begin for Rolls-Royce's lean-burn Trent demonstrator
- 36 | Siemens takes lead among emerging electric propulsion OEMs
- 37 | Boeing, Saudi Arabia form military MRO joint venture

SPACE

- 48 | Webb Space Telescope facing new launch delay, cost cap threat

CONNECTED AEROSPACE

- 53 | OneWeb looks to disrupt inflight connectivity market

TECHNOLOGY

- 54 | Boeing refines blended wing designs

MQ-25 COMPETITION

- 61 | General Atomics proposes whale-body Avenger derivative

UNMANNED AIRCRAFT

- 62 | Details emerge about Lockheed's pioneering X-44A

- 64 | DARPA sees autonomous drone swarms supporting urban ops

FAST FIVE

- 65 | Harris CEO on new opportunities, battle for talent

MANUFACTURING

- 66 | OEMs seek technologies to make carbon-fiber components faster

ROTORCRAFT

- 67 | Crash probe may broaden use of health and usage monitoring

AIR SAFETY

- 68 | Data from electronic devices can aid accident probes

AIRCRAFT INTERIORS

- 70 | Densification to keep driving cabin seat design

- 70 | OEMs press cabin equipment makers to boost quality

VIEWPOINT

- 74 | How China's political realities can affect commercial aircraft demand

ON THE COVER

Lockheed Martin is proposing a flying wing design for the U.S. Navy's MQ-25 unmanned tanker. Boeing and General Atomics Aeronautical Systems also are offering candidates. Lockheed Martin concept. Aviation Week publishes a digital edition every week. Read it at www.aviationweek.com
