

DEFENSE

- 22** | Eurofighter and F-35 face off in German fighter competition
- 23** | Surveillance drone is a test of European cooperation
- 40** | Australia begins upgrading farseeing radars
- 42** | U.S. aims for faster, easier exports of military unmanned aircraft

UNMANNED AIRCRAFT

- 24** | The commercial UAS industry shows signs of maturing
- 25** | Unmanned aircraft, bomb-disposal robots partner in U.S. Navy project
- 27** | Low-altitude cargo flights could be autogyro's renaissance
- 46** | U.S. government agencies seek drone defense authority

- 47** | Airborne recovery could expand operations by UAVs

- 48** | Aircraft propulsion via laser beam moves closer to reality

SPACE

- 28** | SpaceX steps up Falcon 9 operational pace as Block 5 debuts
- 30** | The UAE's space exploration program takes shape
- 36** | Virgin Orbit begins engine qualification tests
- 37** | Europe accelerates studies of reusable launchers

INTERVIEW

- 38** | Italian Air Force commander on how F-35 will alter the service

FEATURES

20 | Future Combat Air System

Europe wants to challenge U.S. defense market dominance through cooperative defense programs

32 | Powering Up for Suborbit

Powered flights and engine qualification tests underway for Virgin Galactic SS2s

52 | 'Unprecedented'

The narrowbody aircraft market is busier than ever

60 | Cockpits of the Future

Research and development efforts envision flight controls that are highly integrated, easier to use

DEPARTMENTS

ELECTRONIC WARFARE

- 43** | Royal Air Force approves Leonardo EW system for ops
- 44** | Israeli companies miniaturize combat aircraft technologies

BUSINESS AVIATION

- 49** | FBO chain Jetex partners with electric aircraft developer
- 50** | Chinese bizjet buyers are disregarding tariff threat
- 51** | HondaJet output is moving to six aircraft per month

COMMERCIAL AVIATION

- 56** | Bombardier overcomes delays and speeds up C Series production
- 57** | HNA's biggest airline, Hainan Airlines, will lead in long haul
- 58** | Early findings in CFM56 engine failure probe reveal little

ROTORCRAFT

- 63** | Flight tests mark key stage for S-64 composite blade program

VIEWPOINT

- 66** | Why space exploration is relevant to the entire planet

ON THE COVER

Virgin Galactic's Unity, the first SpaceshipTwo to be built and powered by The Spaceship Co., accelerates toward an apogee of more than 84,200 ft. with seconds to go before its hybrid rocket motor shuts down. Our reports on Virgin Galactic and The Spaceship Co. by Los Angeles Bureau Chief Guy Norris and on sister company Virgin Orbit by Senior Space Editor Irene Klotz begin on page 32. The Spaceship Co./Virgin Galactic photo. Aviation Week publishes a digital edition every week. Read it at AviationWeek.com/awst
